To Whom It May Concern:

I the undersigned have been asked to write a letter of recommendation for Phoenix Heliparts.

It has been my experience with Phoenix Heliparts that their workmanship, knowledge and expertise surpasses that of any other helicopter maintenance or repair station that I have ever dealt with, utilizing a MD helicopter.

Their assistance with all matters pertaining to the continual serviceability of my aircraft has been outstanding.

I have been able to rely on them even when we are in different countries, when in my own country, service was not available which would have grounded my aircraft. Phoenix Heliparts kept me going by coming to Canada to assist me with warranty repairs, ensuring my operation experienced no significant down time, when MD helicopters would not even return my calls of A.O.G.

In my opinion Phoenix Heliparts provides a service excelling far above what would be normal expectation of any service or repair station.

I encourage any persons searching for a reputable firm that will provide outstanding service to look no further than Phoenix Heliparts. You've found them.

If you need more information, please don't hesitate to contact the writer.

Yours truly,

Gene Drader
